

## Certificate

### Letter of Reference

We acknowledge that Mr Niklaus Rindlisbacher took the time and effort dedicating himself to the Bösendorfer Technical Training at our manufactory from 08th of October, 2018 till 19th of October, 2018 cherishing a long standing tradition of our company.

Mr Niklaus Rindlisbacher has shown skilful application of prior acquired knowledge in the field of piano manufacturing, such as setting up the damper system, regulating, tuning and voicing Bösendorfer Grand Pianos. His good work shows a great understanding of our sound philosophy and technical refinement. He is to be recognised as a proper technician with great skill and attitude.

We would like to thank Mr Niklaus Rindlisbacher for his participation, honour his contribution and sincerely wish him moments of joy, appreciation and inspiration while dedicating to making piano music sound unique. We are looking forward to Mr Niklaus Rindlisbacher applying further his skills and becoming a true Bösendorfer Artisan.

Yours,

Thomas Broukal

Director of Manufacturing

## The Art of Piano Manufacturing

---

Our founder Ignaz Bösendorfer was convinced that a piano should not only be outstanding on a mechanical level but inspire artists as well as the audience. He felt that it should be built to the highest standards and be exhilarating to listen to. He dedicated his life to passing on his profound knowledge about the Art of Piano Manufacturing. From artisan to artisan.

From master's hand to scholar's heart.
